

Ali Badara Mansaray

Ali B. Mansaray is the Director of the STD/HIV & Viral Hepatitis Division, Bureau of Communicable Disease Prevention & Control, South Carolina Department of Health and Environmental Control (DHEC). He 20+ years of experience in public health practice and research, mostly in STD/HIV/AIDS, but also chronic disease prevention and control, behavioral and health services research, policy and management. His baccalaureate education was in Philosophy and the English Language; his master's in health education, Promotion and Behavior; and his doctoral studies in Health Services Policy and Management. He has extensive hands-on experience in program development, implementation, evaluation, management and oversight; as well as theoretical and applied research.

Ali previously worked with DHEC in different program areas, including as Program Coordinator in the Divisions of STD/HIV and Healthy Aging, respectively; Program and Evaluation consultant in the Office of Minority Health, and as Evaluator in the Office of Program Evaluation Services, Bureau of Community Health and Chronic Disease Prevention and Control. In between, Ali worked as Director of Community Health Promotion and Prevention with the Camden Area Health Education Center, Camden NJ (2002-2004), and as Evaluation and Data analyst on an NIH-funded Faith-based Community Based Participatory Research for Colorectal Cancer Prevention among African Americans in the Midlands of South Carolina. He has over a decade of experience as a grant development and writing consultant for CBOs, both as a CDC/APA sponsored Behavior and Social Science Volunteer (BSSV) and as a private consultant. Ali has worked with and served on the boards of directors of several non-profit public health organizations in SC, NJ, and the DMV (DC, Maryland and Virginia) area. Ali is a book editor and a published poet, and married with six children.
